

# BlackBelt

5G Field Contribution

## Leverage 5G mobile networks and go live from anywhere

BlackBelt is our super-portable live field contribution solution. Packed with innovative features at a low monthly cost, this is next generation video delivery.

### Reliable Performance

Proprietary Dual-Path 5G delivery offers ultra-low latency, broadcast quality video.

**Outperforms bonded cellular**  
**Automatic recovery of any missed packets within minutes**  
**- often only seconds**

### Streamlined Workflow

Cloud recording and editing tools give your newsroom access to the live event without scheduling a recording.

**Capture and distribute live content using the iNet protocol**  
**Pristine video file delivered to your watch folder.**

### Unmatched Portability

Focus on capturing unmissable moments. Enjoy easy set-up and hours of power in one lightweight package.

**Wireless or wired connection to your ENG camera**  
**Built-in battery pack**  
**Powerful batteries offer extended transmission time**

**“VideoShip has been a major player in the growth of our organization by listening to our needs and providing affordable solutions with high performance.”**

Juan Carlos Isaza, Executive Director  
Alianza Informativa Latinoamericana
